

Installation guide for ringtones on an iPhone

ADD A NEW RINGTONE TO YOUR IPHONE

1. Connect your iPhone to your computer.
2. Open the latest version of iTunes (12.7).
3. In the left sidebar you see the headline "Devices" and your connected iPhone with the categories "Music", "Movies" and "Tones". Open "Tones".
4. You can now copy the .MR4 ringtone file from its folder with the shortcut "Ctrl" + "C" and past it into the Tones section with the shortcut "Ctrl" + "V". The ringtone will now be added to your tones and synchronized automatically with your iPhone.

SETTING THE RINGTONE ON YOUR IPHONE

1. On your iPhone, navigate to Settings -> Sound & Haptics.
2. Under "Ringtone" you will find a list of ringtones, including the ones you have added. Here you can select the "Jumbo Power" ringtone of your choice.
